

¿Diga en palabras el significado del teorema de Pitágoras ( $c^2 = a^2 + b^2$ ) ?

Encontrar el valor faltante de los siguientes triángulos rectángulos

<http://elclubdematematicas.jimdo.com>

Encuentre el valor faltante de los siguientes triángulos rectángulos.

1)  $a = 4$        $b =$        $c = 5$

2)  $a =$        $b = 16$        $c = 20$

3)  $a = 18$        $b =$

$c = 24$

4)  $a = 15$        $b = 20$        $c =$

<http://elclubdematematicas.jimdo.com>

5)  $a =$        $b = 35$        $c = 48$

$+$   $\times$   $+$   $=$   $+$

$-$   $\times$   $-$   $=$   $+$

6)  $a = 8$        $b = 6$

$+$   $c$   $\times$   $-$   $=$   $-$

$-$   $\times$   $+$   $=$   $-$

7)  $a = 14$        $b =$        $c = 22$

8)  $a =$        $b = 24$        $c = 30$
